JeCCDO

Opportunity for Change Training Centre (JOCTC)

JeCCDO Opportunity for Change Training Centre (JOCTC) is a new training facility established in 2013 by Jerusalem Children and Community Development Organization (JeCCDO) in Bishoftu Town of Oromia National Regional State.

The Training Centre is established in accordance with the Government of Ethiopia's Charities and Societies Proclamation No. 621/2009 with the aim of enhancing JeCCDO's community development efforts by simultaneously engaging in income generating activities and raising income from local sources.

The Training Centre has been registered and acquired legal business license to provide training services and related facilities. This makes JeCCDO one of the very few indigenous CSOs pioneering in anchoring social enterprise model towards its development works in Ethiopia.

The Centre is situated on 5 hectares of scenic land in Bishoftu Town; which is one of the flourishing tourist destination towns of the Country located only an

hour drive away from the capital Addis. The Centre is specifically located near Lake Cheleleka, on the main route to Lake Babogaya.

JeCCDO strongly believes in the power of local communities to bring about sustainable development. Cognizant of this, JeCCDO, as of 2003, has been actively working with grassroots communities and their structures to ensure sustainable development by their own. The Centre was initially meant to serve this particular purpose, and has now blossomed in to centre of excellence for trainings of all sorts.

Hence, the Centre provides cutting-edge training services and related facilities with reasonable market price to:

- ❖ Civil Society Organizations (CSOs);
- ❖ International organizations;
- ❖ Public organizations;
- ❖ Business organizations; and
- ❖ Private individuals

The Training Centre caters competitive training, bed and boarding services through the following facilities:

👉 **2** stylish two-stories guest houses each with seven full-fledged luxury rooms;

👉 **22** elegant standard bed rooms;

👉 **A 300** people capacity modern conference hall with five syndicate rooms;
